

FLOW GAUGE REGULATORS

A complete range of
flow gauge regulators

FLOW GAUGE REGULATORS

Dodhys flow gauge regulators are piston-type fixed-pressure regulators incorporating a flow gauge and are available for different cylinder types and flow ranges. Made of brass and chrome finished, the regulators are robust and because of their ease of use and reliable performance can also be used for homecare. All regulators are available for a maximum inlet pressure of 3000 psi. The cylinder contents gauge indicates when the cylinder is "FULL" and when it should be refilled by indicating a red field marked "REFILL".

BRITISH BULLNOSE CONNECTION

Flow gauge regulator with cylinder contents gauge, flow range 1-8 lpm MD 31400	
Flow gauge regulator with cylinder contents gauge, flow range 2-15 lpm MD 31401	

CGA 540 INLET CONNECTION

Flow gauge regulator with cylinder contents gauge, flow range 1-8 lpm MD 31403	
Flow gauge regulator with cylinder contents gauge, flow range 2-15 lpm MD 31404	

PIN INDEX YOKE CONNECTION

Flow gauge regulator with cylinder contents gauge, flow range 1-8 lpm MD 31406	
Flow gauge regulator with cylinder contents gauge, flow range 2-15 lpm MD 31407	

ACCESSORIES

Outlet nipple MD 32277	
Vinyl face mask, child MD 30001	
Vinyl face mask, adult MD 30000	
Humidifier MD 30050
