

## VACUUM REGULATORS

A complete range of Vacuum Regulators and related accessories

# VACUUM REGULATORS

Vacuum regulators are made out of lightweight aluminum and offer a strong and durable service. Fitted with a 150cc safety bottle as standard, the unit provides safety against accidental aspiration of liquids into the regulator. The unit is also fitted with a bacteria filter, protecting the pipelines from bacteria. Available in different configurations such as wall, rail, or trolley mounted and with one or two suction jars. Pre-configured, ready to use kits are also available.
